

ELTEK Labs and Submittals to UL

June 2013

ELTEK Labs is certificated by UL for a specific group of tests. Our certification can be verified by going to [www. UL.com/Directory](http://www.UL.com/Directory), then to their Online Certification Directory. Our record is under our UL File AG105.

Test results from ELTEK Labs for projects which fit within the scope of the list in AG105 can be submitted to UL.

UL is expected to be informed of each project prior to the actual start (or within a certain time period for Long Term Thermal Aging [LTTA] projects) of testing. These details should be clarified and confirmed prior to the start of any project. For LTTA projects it is common, but not required, to have a Screening Test completed prior to UL involvement. The completion of a Screening Test can be very beneficial in the development of the project Test Procedure and Protocol [TP&P].

For any questions about the acceptance of ELTEK Labs test data, please contact UL directly. For projects falling under UL 94, UL 746-A, UL 746-B, UL1694 or other material evaluations, we recommend you contact George Fechtmann:

George Fechtmann
Underwriters Laboratories
1285 Walt Whitman Road
Melville, NY 11747-3081

George.j.fechtmann@us.ul.com
(631) 271-6200 ext 22858

For project which h fall under UL 1446 or similar EIS type of project, we recommend you contact Joe Albers:

Joe Albers
Underwriters Laboratories
333 Pfingsten Road
Northbrook, IL 60062

Joseph.M.Albers@ul.com
